## **Professional Skills:**

### **Clinical Nutrition:**

- Developed proficiency in parenteral nutrition, tube feedings and nutrition care process achieving “meets” or “exceeds expectations” in all areas; major case addressed nutritional management in acute pancreatitis. Assessed and managed 8-12 patients/day during clinical staff relief in a community hospital.
- Demonstrated entry-level pediatric skills during advanced practice rotation at Children’s National Medical Center including case study presentation describing use of bariatric surgery in children.
- Exhibited entry-level proficiency with two different electronic medical record charting platforms.
- Participated in hospital wellness programs including PPT development for future staff use.

### **Communication:**

- Provided individualized client-centered education in inpatient, outpatient and community-based settings to clients with varying literacy and economic backgrounds.
- Demonstrated website development proficiency during USDA Food and Nutrition Information Center technology rotation; created two new web pages for a national food assistance program website.
- Selected for invited presentation with internship partner at Maryland “DHCC: Dietitians in Health Care Facilities” April 2013 conference to introduce the participants to Dropbox, a technology tool for private practice.
- Developed a strong drive for success, an ability to deal with change, and the capacity to adapt to different standards through varied, diverse internship supervised practice rotations in twelve different sites.

### **Technology and Informatics:**

- Developed enhanced social media, electronic messaging, web graphics, and web-conferencing skills.
- Employed blogging and twitter professionally to reach professional audiences.
- Selected for abstract-poster presentation at the 2013 FNCE meeting in Houston; poster entitled: “Knovio: Generating Your Free Webinars for Today or Next Week”.
- Utilized technology skills for theme meal financial statement and comment card analysis; used same skills for SWOT analysis, coffee shop financial cost-benefit analysis and in-service training/evaluation.
